

# Saidjon Safaraliev

Full-stack and Blockchain developer

## About me

I have 5 years of experience in the field of software development. My major stack includes MERN, MEVN, React Native, Flutter, Php, python and Django so on. I also have a deep knowledge of github and I believe I am an excellent full-stack and Blockchain developer. I have developed several websites for small to medium sized companies and have resolved many technical issues for my clients. I think this magnificent field propels me into an extraordinary journey that awaits me! And, I love to learn new technology and I am a great team player. so I always try to learn new technology and I can work seamlessly with any team members. As a full stack developer, I can convert your idea into persuasive and valuable content.
